

Allergy Menu Disclaimer

****PLEASE READ****

At Applewood Farmhouse Restaurant, we recognize the need for our guests to have access to food allergen information. These recommendations were devised with the most current information from our suppliers and with our most updated recipes and food preparation practices considered. The suggested menu items listed on these pages do not directly contain the specified allergen, **but they may have been manufactured on equipment which also manufactures any given allergen.**

During normal cooking/kitchen procedures, these foods may have come into contact with any given allergen on our own shared kitchen equipment and fryer oil.

****Therefore while we provide this guide for the convenience of our guests, we cannot guarantee that any single menu item is completely free of any given allergen.****

In addition, we recommend that guests with food allergens **avoid fried** menu items due to the high degree of likelihood of cross contamination.

(Note: Both apple fritters and fried chicken have their own designated fryers. All other fried items share the same fryer and oil.)

To follow are menus with special recommendations for guests with: Gluten, Dairy, Peanut/ Tree Nut, Egg and Fish/ Shellfish Sensitivities. Thank you for allowing us to serve you in this way.
